

Understanding Your SurveyWorks Results

*Rhode Island Department of Education
Panorama Education
Spring 2017*

Goals

- Overview
- Navigate your 2017 SurveyWorks Results
- Learn strategies and tips for engaging your communities around feedback results

Overview

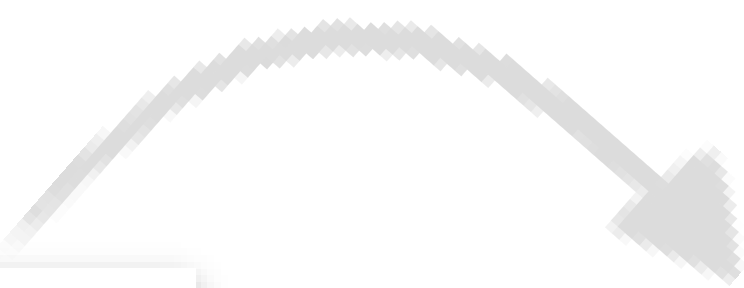

Purpose of SurveyWorks

The SurveyWorks Stakeholder Survey Program is an effort to gather information that will help improve the quality of schools across Rhode Island. The surveys capture and assess information that helps school leaders understand and act upon what students, teachers, support professionals, and parents say about the climate, culture, and learning environments in their schools.

Engaging Your Community around Results

Possible Next Steps

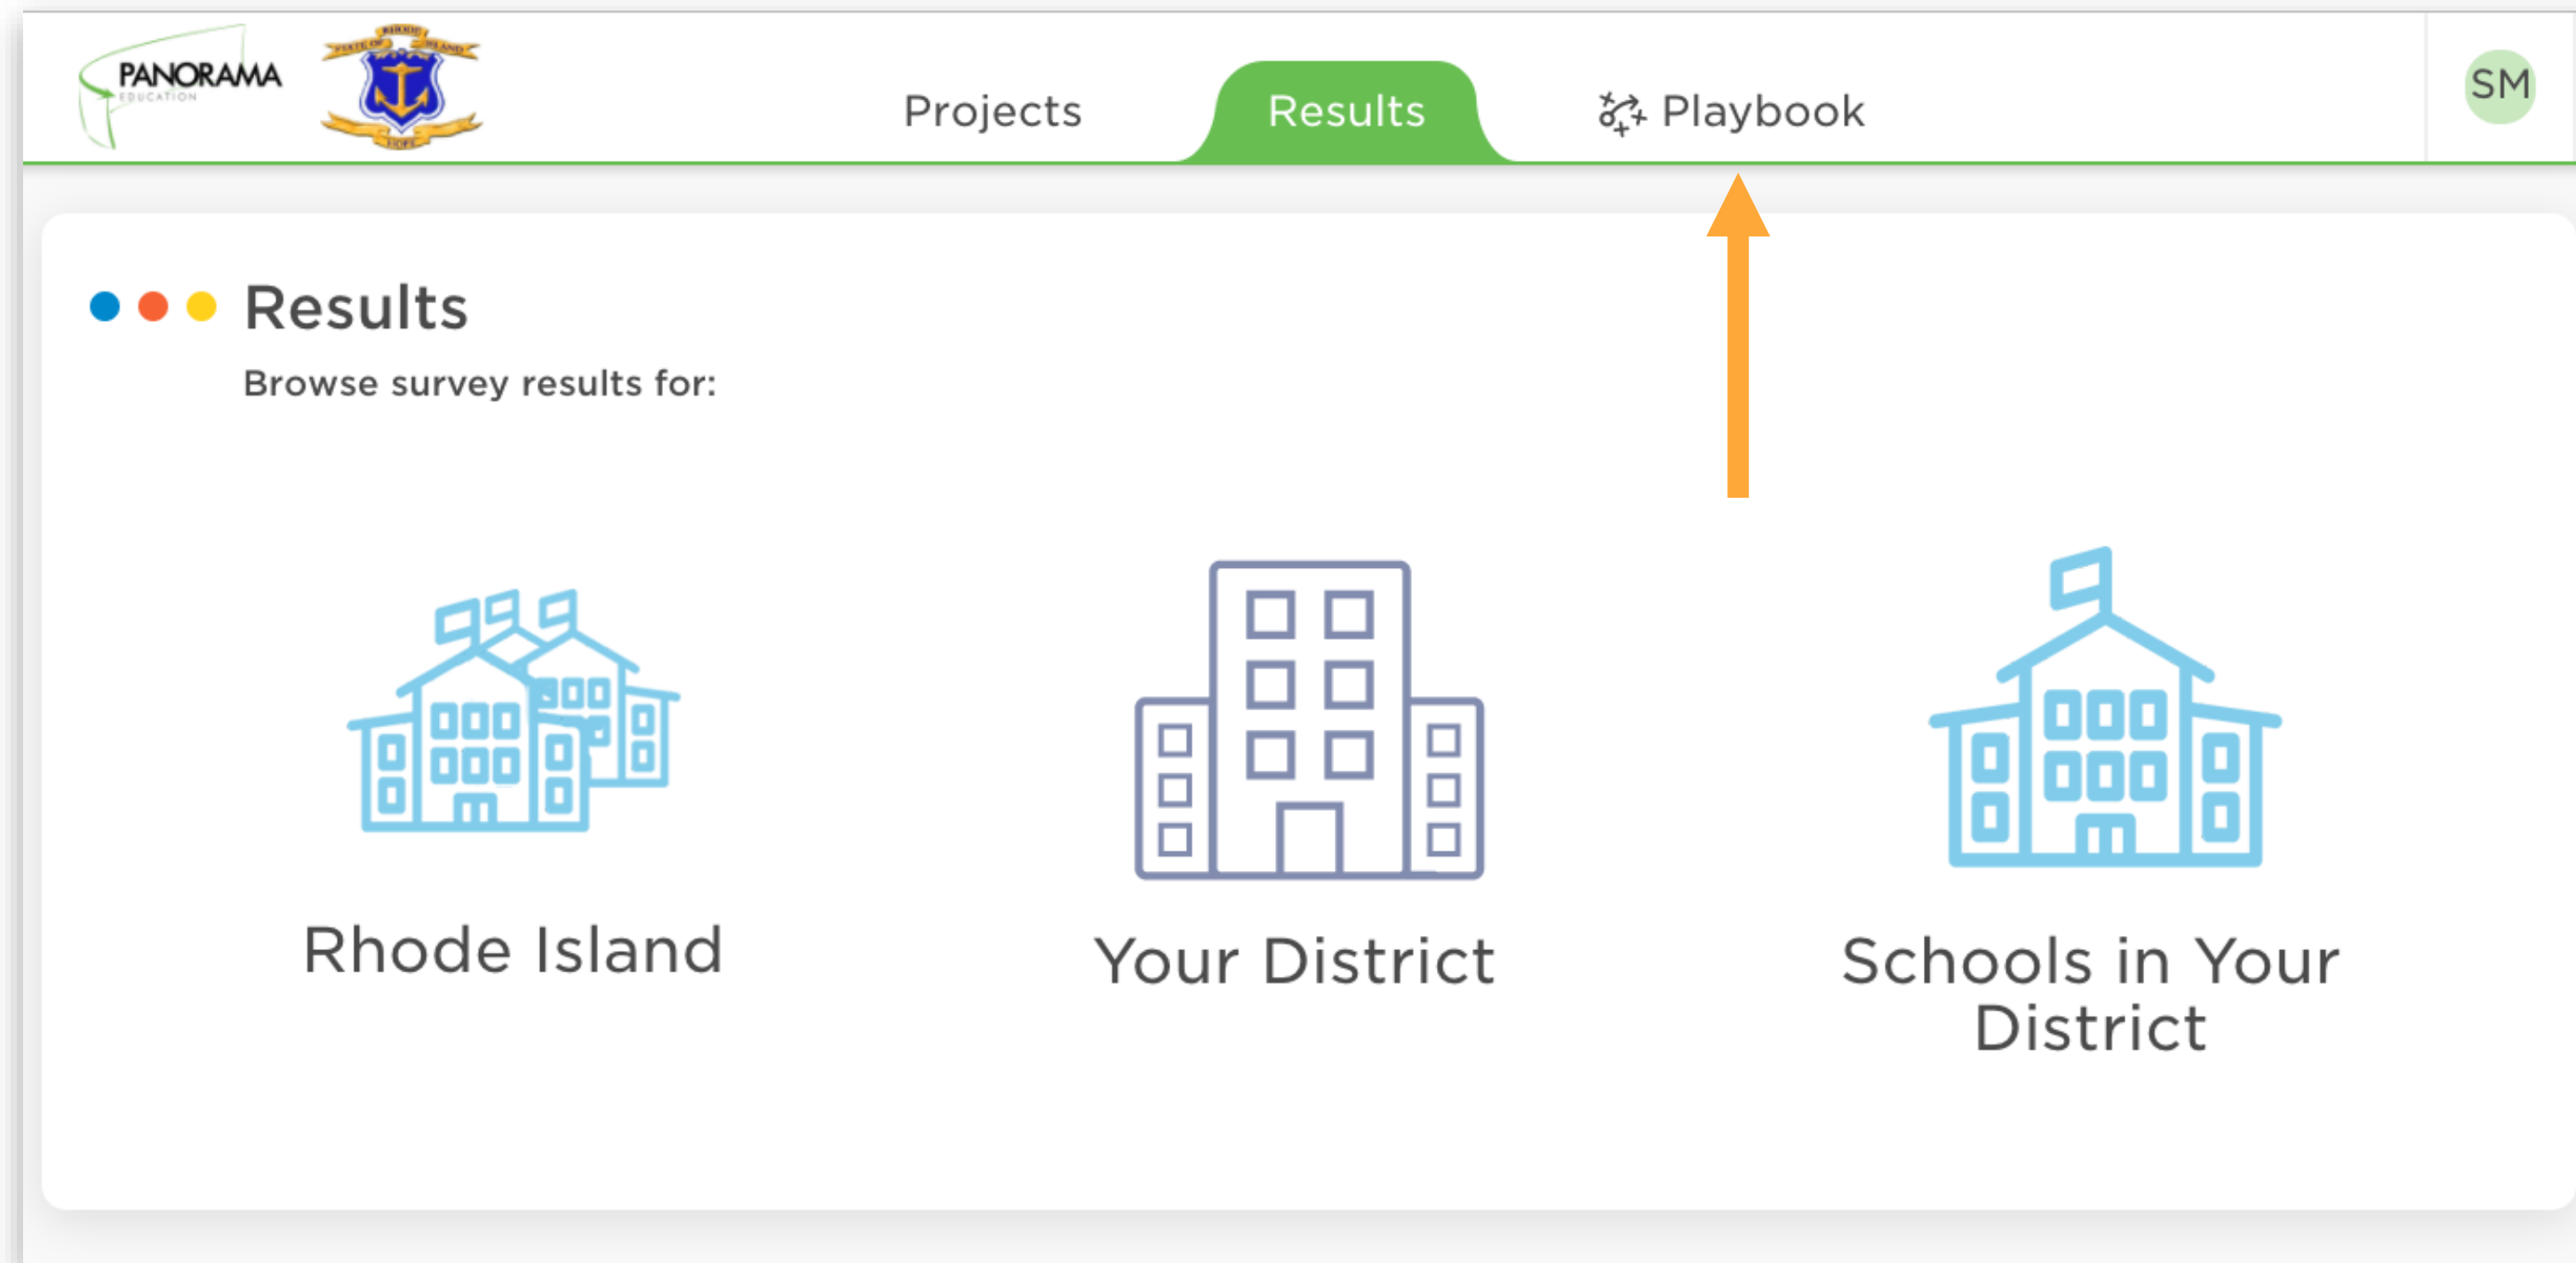

1. **Identify your team**: Who will dig into the results with you? Who will help create a plan of action based on the data?
2. **Identify key dates**: What key dates should you plan around (professional development days, critical milestones for an action plan, etc.)
3. **Protect time to dig into the data**: When will you dig into the data?
4. **Identify focus areas**: What focus areas will you prioritize?
5. **Create an action plan**: What next steps will you and your team take?
6. **Share your action plan**: Who should see the action plan?

Resources for Looking at Data

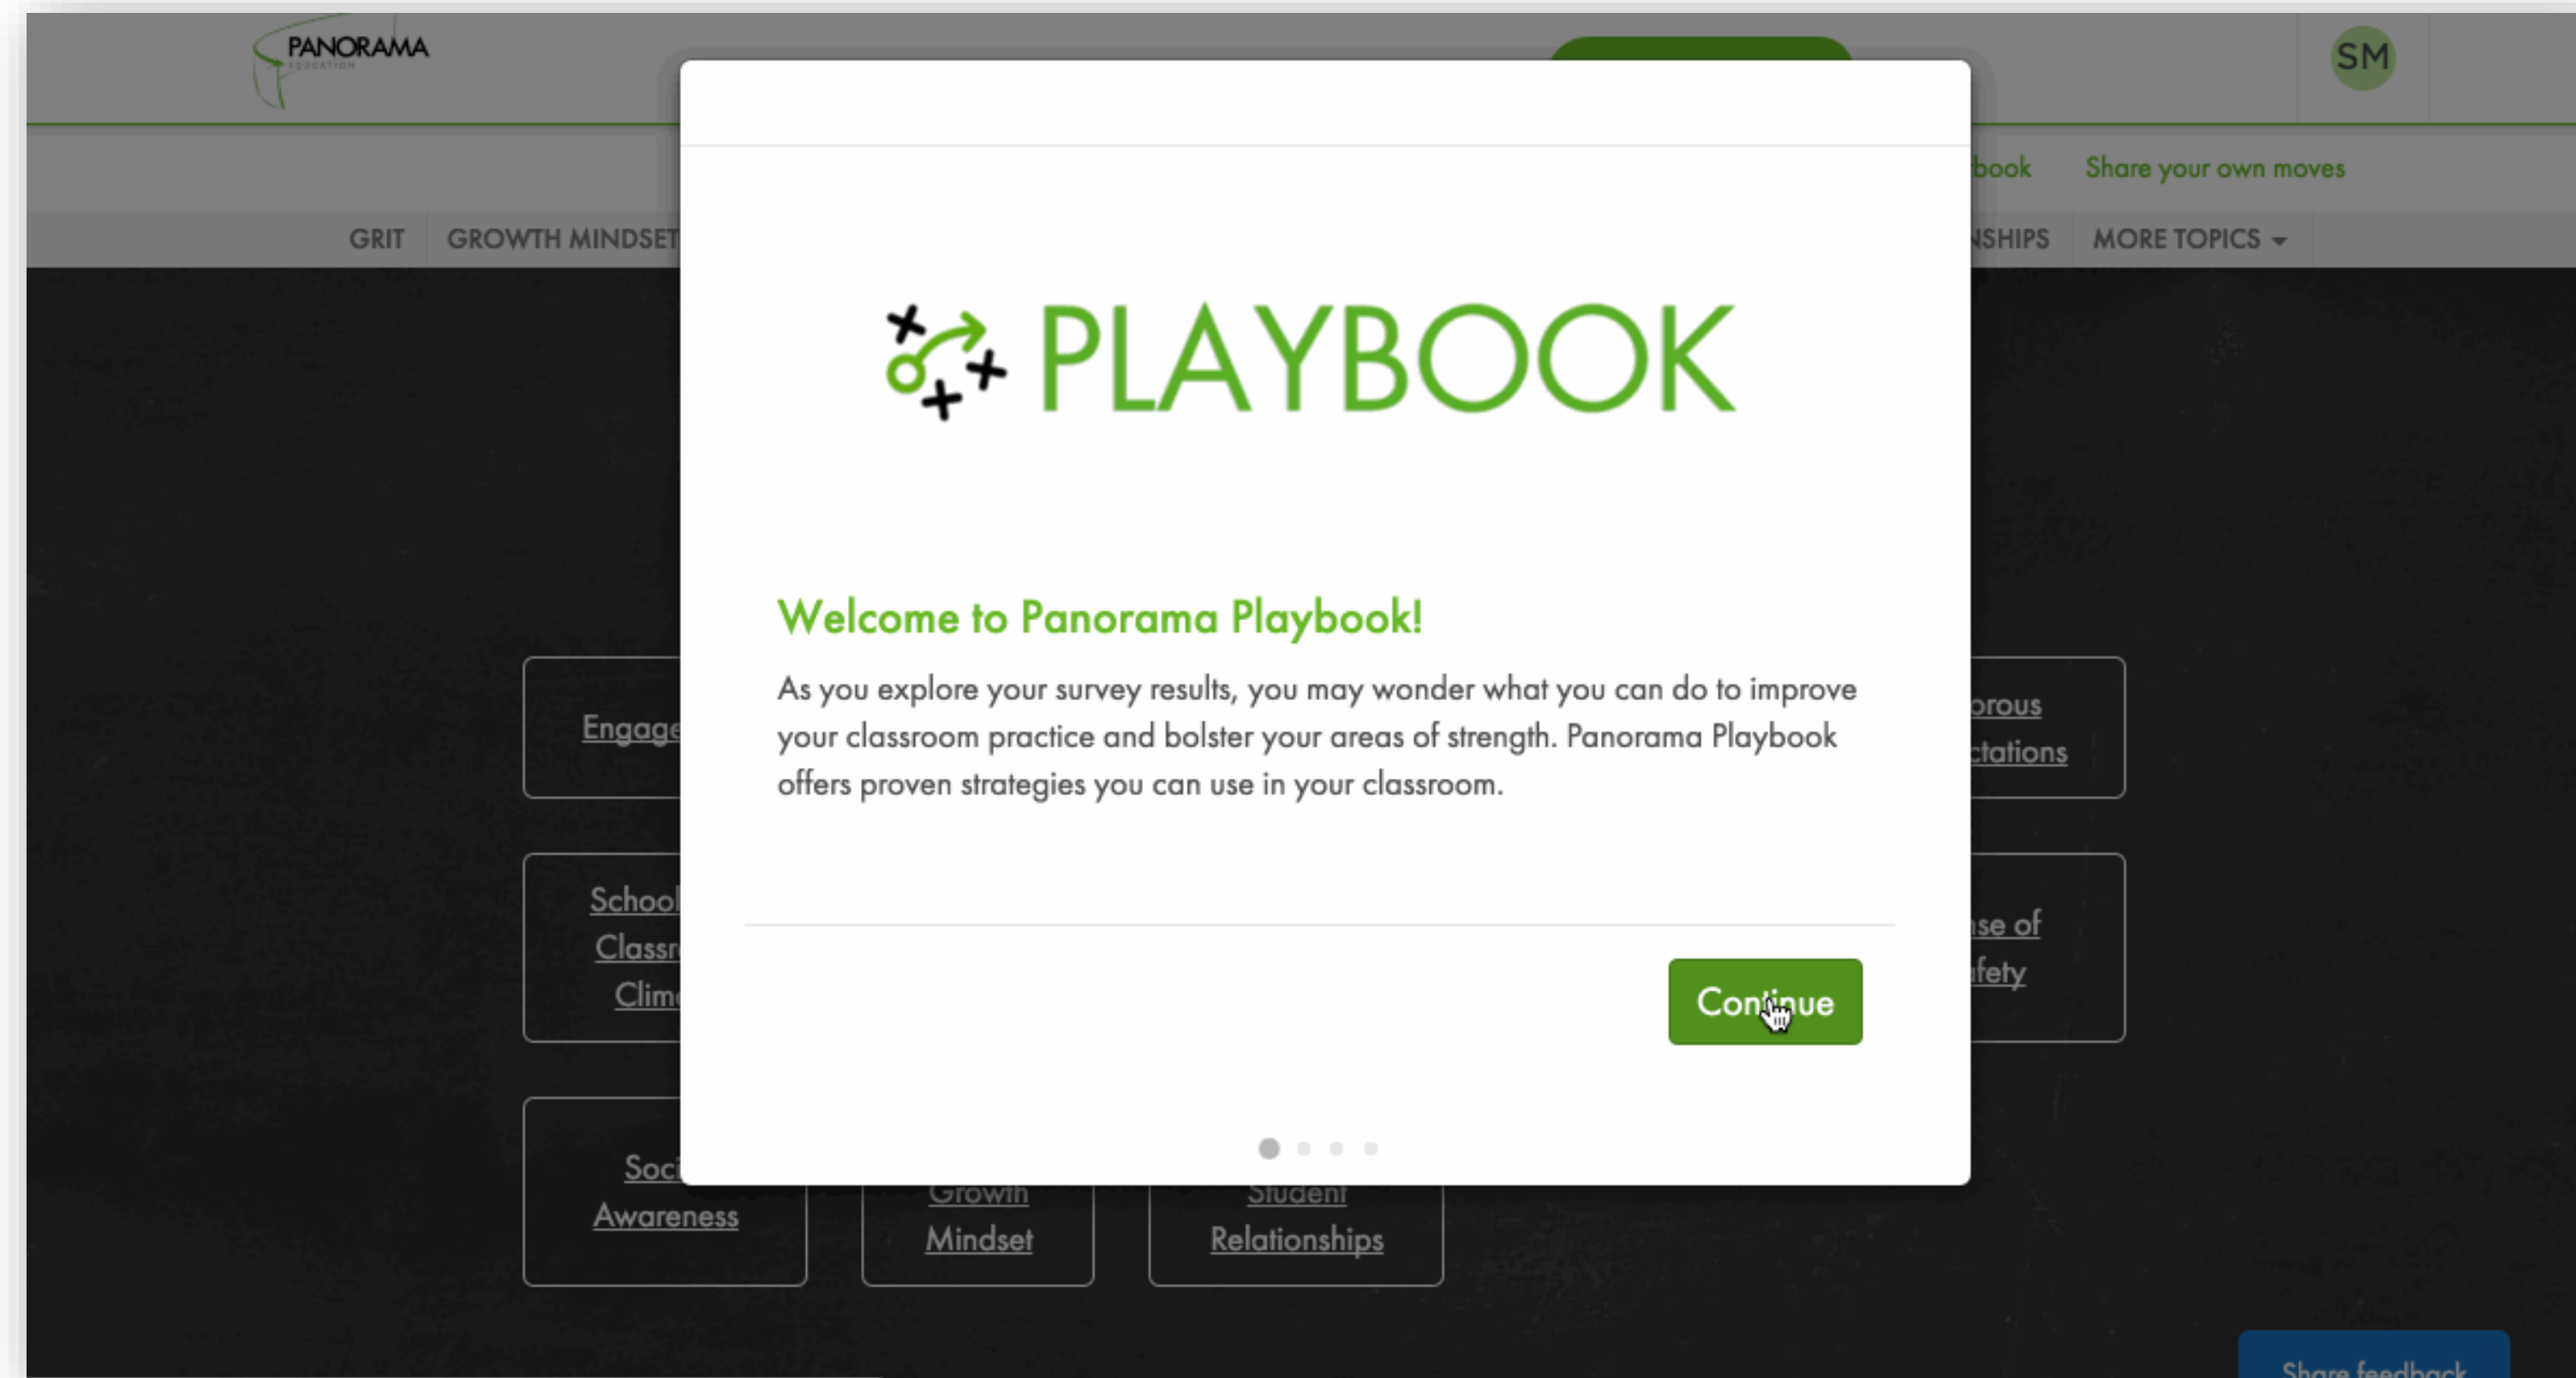

Find resources to lead meetings, start a data inquiry cycle, and navigate results

Take Action: Playbook

- Built by teachers, for teachers, every strategy, or “move” on Playbook, comes from a successful classroom teacher
- Teachers can read, save, and implement relevant, bite-sized strategies in their classroom

Explore “Moves” on Playbook

Create your profile in Playbook to specify the grade levels and course subjects that you teach, as well as years of teaching experience

Frequently Asked Questions

Q: What does the scoring mean on "negatively" scored items?

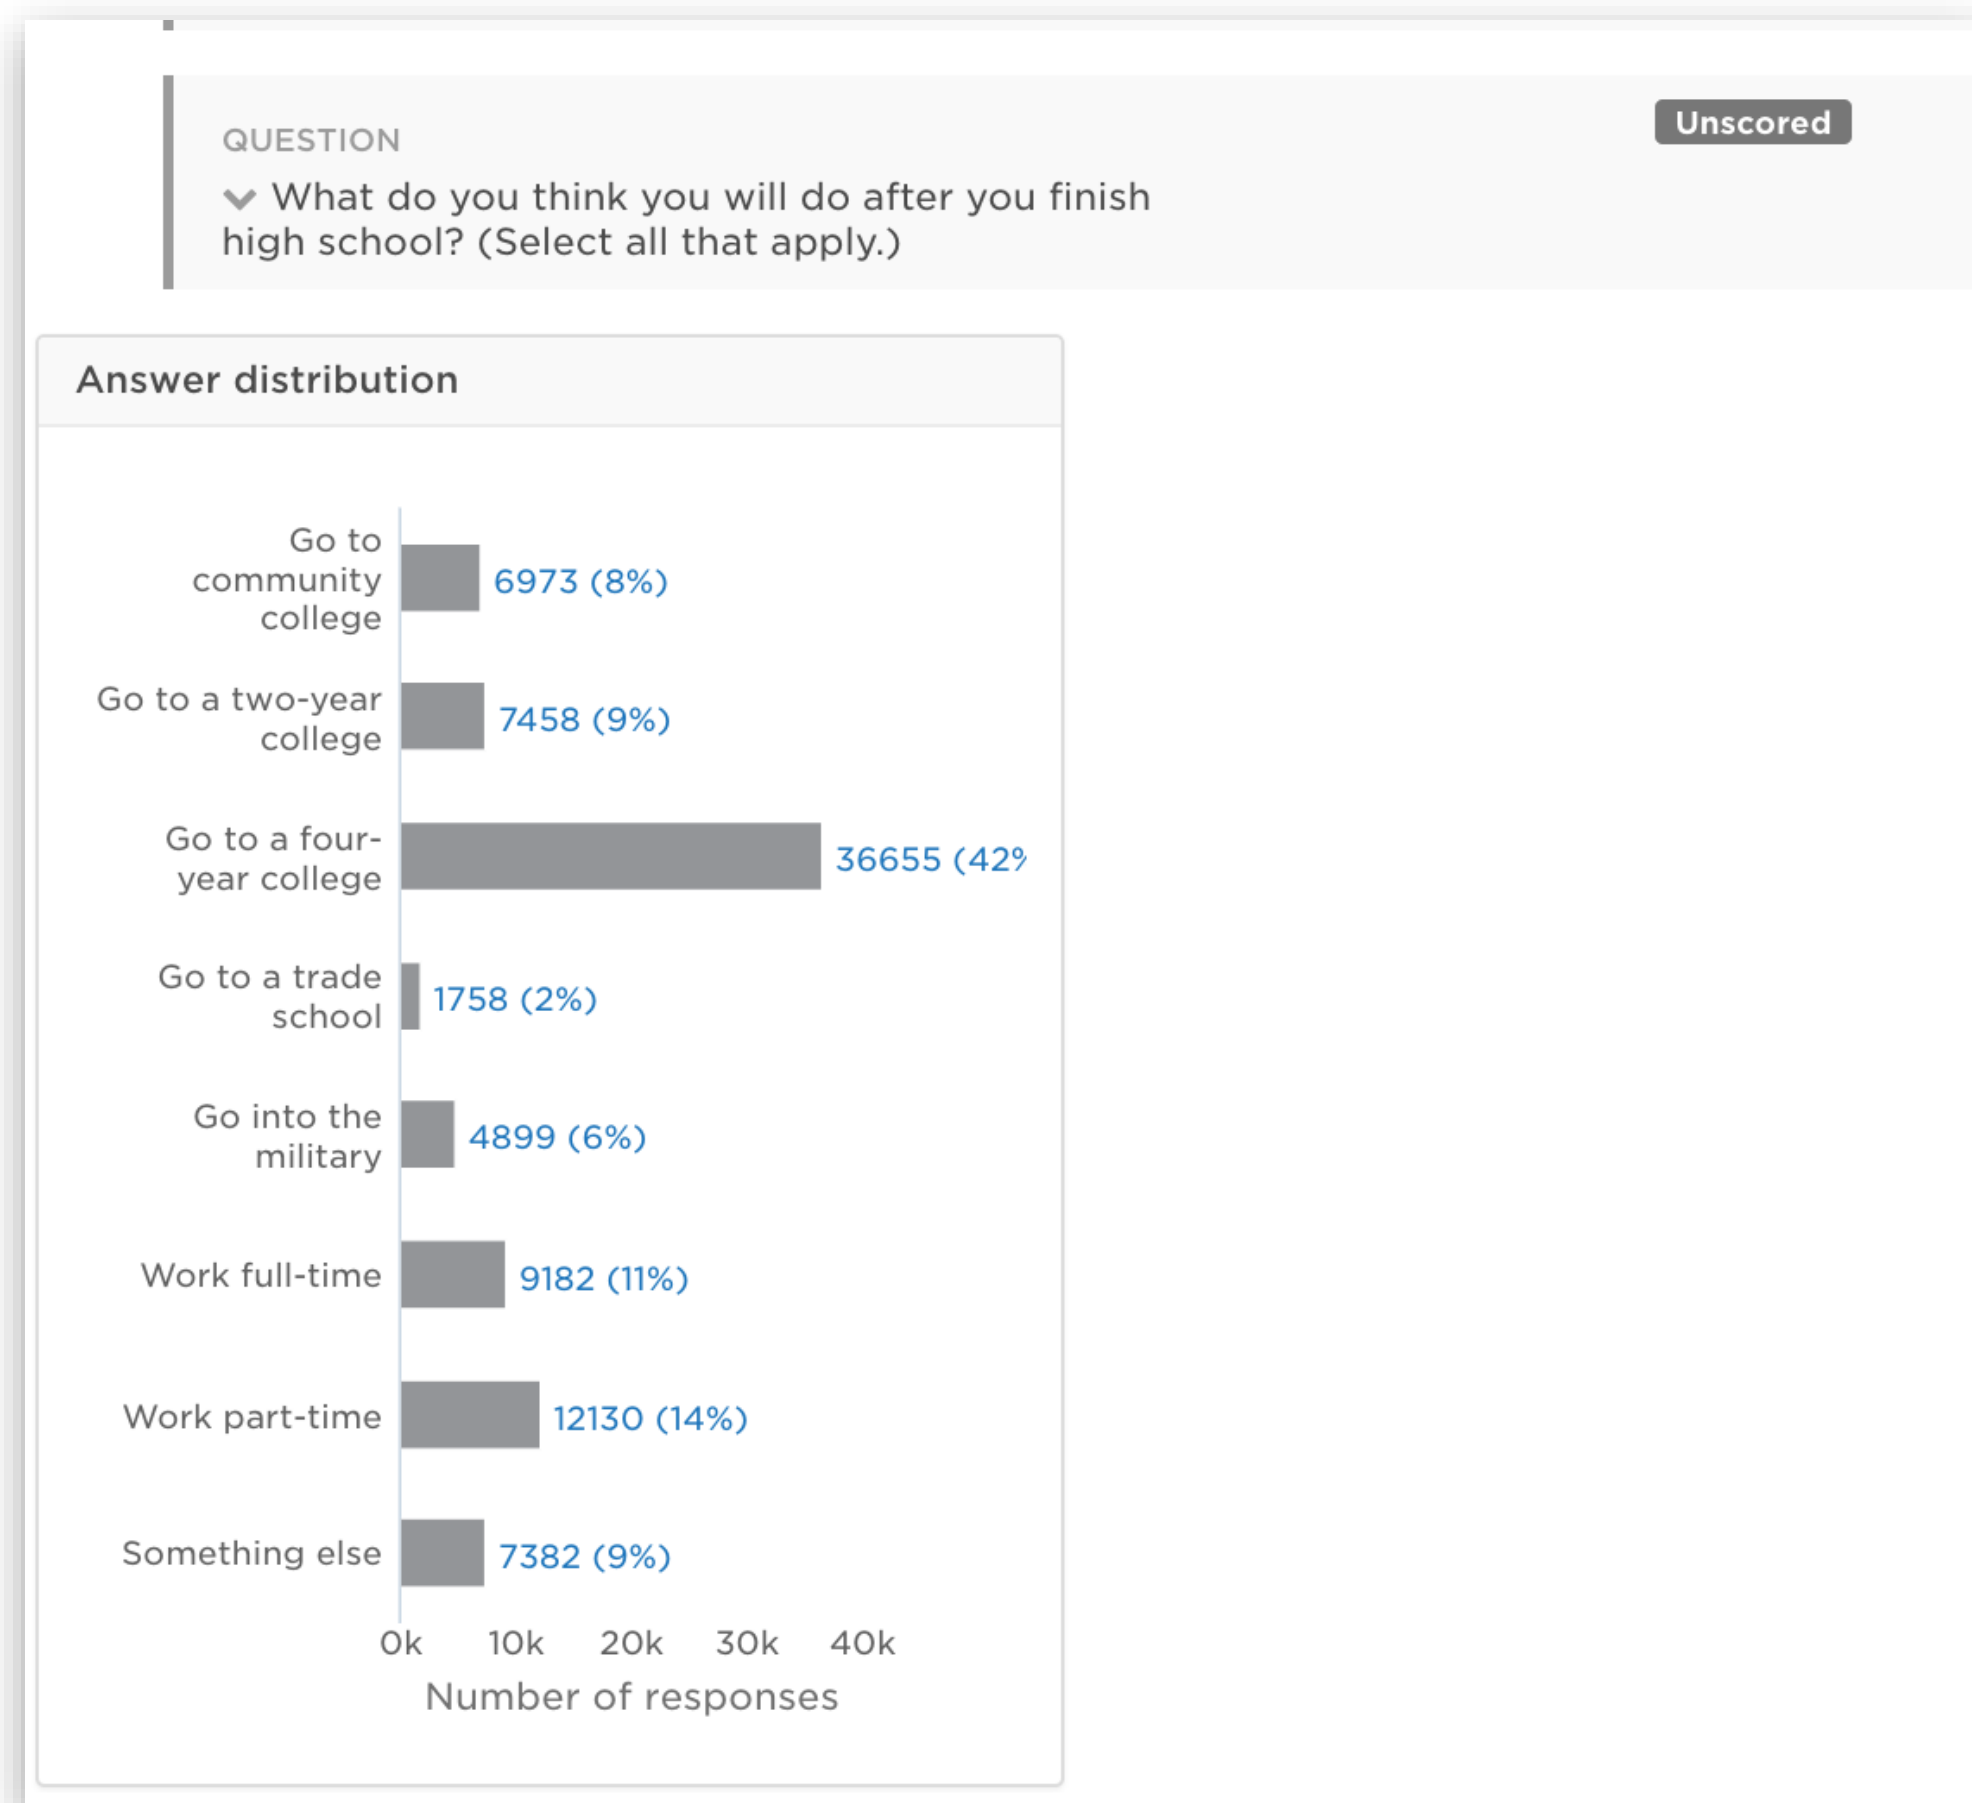

Higher scores are “better” because they reflect higher instances of “Not at all stressful” or “Slightly stressful”

Q: Why doesn't my school have results?

To protect the confidentiality of individuals, a minimum of 10 responses must be received to create an aggregate report. If there are fewer than 10 responses in a school or district, the school/district's data are not displayed in these reports (but included in district and statewide aggregate results).

Q: How are “select that apply” items counted?

We aggregate the number of responses in each answer choice. For example, if someone selected “Work part-time” and “Go to a trade school” they would be counted once for “Work Part-time” and once for “Go to a trade school”

Note that all percentages are rounded to the nearest whole number.

Thank You!
